RE: Shoe Carnival Headquarters Project

Dear Anne:

Precision Erection Company and its team members successfully completed the steel erection and roofing for the recently completed 60,000 sq. ft. Shoe Carnival National Headquarters project in Evansville, Indiana. This project involved the construction of a two-story Class "A" office building including some challenging erection features required to achieve the architectural dynamic desired by our group.

The team members of Precision Erection Company provided us the highest level of service and quality workmanship our company has experienced to date on projects of this nature.

Precision Erection Company also completed the steel erection, side walls and roofing for the 410,000 sq. ft. Shoe Carnival National Distribution Center also located in Evansville, Indiana. This work was completed to our complete satisfaction prior to the headquarters project mentioned above.

If you or anyone you are working with has any questions, please don't hesitate to call me at (812) 474-1900 or email at ebeck@woodwardrealty.com.

Sincerely,

A handwritten signature in black ink, appearing to read 'E. L. Beck', written in a cursive style.
